

Raja Rogers Meeting 11-22-05

Dr. Rao gave a great talk in Lexington. Many signing up for AT.

Vedic Experts will tour Florida in Jan.

Need a location for them during the last two weeks in Dec.

Vedic Colony and Peace Palace Project: We buy the land. Builder builds building. Individual pays the builder for the home. Builder pays us royalties and licensing fees – total 20%.

Atlanta was so big – take the one close to the city and think about one larger with more land farther from town. City Peace Palace and then one more on the periphery.

Stuart looked at land in Jupiter. Residential land is \$6 million per acre.

Upper price for land - \$1 million per acre is high, but movement has paid this before.

How to handle a refresher course where there are couples and only one lady to teach? Men and women sit on different sides of the room. Be easy with it. If a single lady joins the course, have them sit separate.

Some increase in activity is happening in our domain and others.

Anyone for Charlotte? If no one in a week, will inquire outside our domain to find some Directors.

Guidelines for lecture location – if East, can be rotated up to 5 degrees towards the North. If North, can be rotated up to 5 degrees towards the East. For lecturing we can be a little more flexible, but vastu is very important.

Stuart's experience – use a building on the cardinal directions with a North or East entrance (may have other entrances). We have used a shopping mall. We have used a Marriott.

Convert $\frac{3}{4}$ " tapes to DVD's: Can do it if you are there while they are duplicating. Keep the DVD private as under the same criteria as a $\frac{3}{4}$ " tape. Raja Rogers will look into them being duplicated in a central location like Vedic City.

In Atlanta, now they have moved into a new apt with good Vastu, they are making good progress and getting International's attn on land.

DVD on Global Reconstruction Program will be distributed to all Directors to be given to builders and developers you are contacting, if you feel there is a chance with them to work with us.

Does Rockford Construction have one already? Will check with Candace.

Can a single woman give a lecture by herself to men or what if it is a mixed group?

Ultimately, Maharishi is getting stronger and stronger on this, esp shown by men's and ladies' Raja courses. It would be nice if a man was there. We always try to play Dr. Hagelin's DVD. But if the equipment is not avl, then give lecture in person. To do intro lecture, people don't have to be recertified. But have to be recertified to teach or check.

Recertified Governor should give the prep lecture.

Candace Martin is an atty. She is reviewing land contracts, but have a local lawyer review first.

Spa activity: Any place that has space is to have a spa, Maharishi said recently:

1. Check local regulations re: need for a license for the massage therapists. Check local and state laws.
2. Look for a licensed massage therapist. Look in massage schools.

Stuart's experience: Hire a therapist for a shift and pay them a retainer fee - \$6/hour, then it went up to \$7/hour. If they treat a client, they get an add'l amount – 12% of the gross fee. Maybe need to cap it at a certain amount, \$25/hr. Plus 18% gratuity. They have to commit to full-time. The gratuity is stated in the brochures, "We suggest 18% gratuity," but it is optional.

Stuart advertised in hotels because their spa was in a hotel.

Maharishi okayed the shorter traditional massage, using a light Ayurvedic oil, but we should encourage people to get the Ayurvedic massage.
